Company	<b>Darius Arabians</b>	
Company's Location	Düsseldorf, Germany	
Visit's Location	Company location, the stable of the growing horses and foals	
Field of Activity	<p>It was in 1987 that they purchased their first purebred Arabian mare, called Travellers Joy who was of russian-crabbet bloodlines. The year 1988 saw the birth of the first homebred foal known by World-ResChampionKomplekt. Until 1993 the number of horses was kept to a minimum and 2 foals of mainly Russian bloodlines would be born each year. All the horses come directly from the Russian state study farm Tersk and as their performances are tested at the racetrack, they have great potential as ridden horses as well. Besides, thee farmers search for special individuals for their future breeding program and they have collected over the years a very high quality base for their farm. The number of kept horses is always around 20 and each year around five babies are born. Special attention is always paid to the broodmares which are considered to give more than the genetic 50% to their foals.</p>
