Summary of Business Visit of Iranian Delegation to Water and Wastewater Companies in Belgium

•••••
Wallonia.be
EXPORT
INVESTMENT

In line with **PEZHVAC** Company's goals for familiarizing Iranian senior managers and technical experts in the country's water and wastewater industry with projects and newest technologies of the day, a technical visit has been arranged to **Cebedeau Company**.

The visit was arranged in order to create an opportunity for Iranian companies to provide their needed equipment and consultancy services for a huge project of water transmission in Iran.

Technical Visit to Cebedeau Co.
in Belgium

Cebedeau Company

The Cebedeau team aims to be a trusted scientific partner giving independent advices during all stages of the design of treatment projects.

Expertise:

- Expertise in biological and physico-chemical treatment
- Industrial water management
- Sampling, analysis and pilot testing
- Applied research and technology transfer
- Training and seminars

The visit took place in Cebedeau Company's location in Liège of Belgium.

The group witnessed the ongoing projects and researches of this company.

They had the honor of the presence of **Madam Domnique BADOT** (En behalf of Commercial Department of Belgium Embassy) in their visit.
