Company	Hendrix Genetics BV		
Company's Location	Boxmeer, The Netherlands		
Appointment Location	Main Office and LAB		
Field of Activity	<p>Hendrix Genetics invests in new ways to analyze and select animals that are more efficient with every new generation, leading to reduced use of resources for feeding, housing, and transporting animals in the value chain. This results in an overall shift of reduced carbon footprint when feeding the world's population.</p> <p>To maintain high quality animal genetics, continuous improvement day after day, year after year is required for what they do. They are dedicated to contributing to all of their breeding programs in order to ensure our products achieve their maximum potential. With day-to-day initiatives contributing towards their mission today, our overlying vision helps guide our organization in everything they do. Their vision to set the standard for sustainable animal breeding will continue to support the global food challenge for the future.</p>
