

Concrete and Building Materials

Tokyo | Osaka | Kyoto Japan

August – September 2024

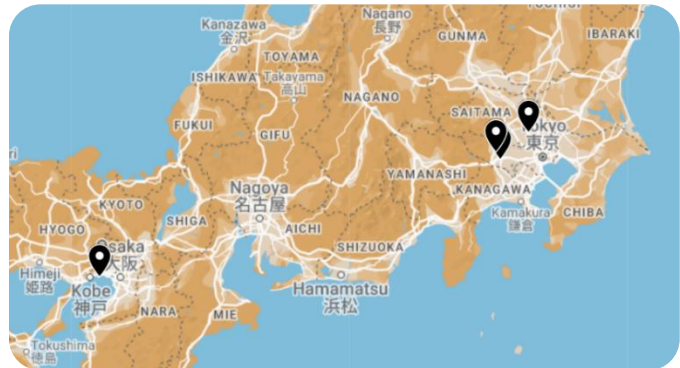

Technical Visit to Companies Specialized in
Concrete and Building Materials
Tokyo | Osaka | Kyoto Japan August – September 2024

To accomplish its defined goals, **PEZHVAC** Research and Innovation Company familiarizes managers in the private and governmental sectors in the field of **Concrete and Building Materials**-related companies with the newest technologies and know-how. In order to conduct business between Iran and Japan, some technical visits to related companies in **Tokyo**, the **Osaka** and **Kyoto** were held in **August- September 2024**.

In this business trip, a group of Iranian top executives and decision-makers in the concrete and building materials industry visited the companies listed below during the mentioned period:

- **Kanto Concrete Industries Co**
- **Ozawa Sogyo Co**
- **EIGHT Co**
- **Onaga Shoji Co**

In the following pages, you may find some detailed information of this technical visit:

<p>Company Name</p>	<p>Kanto Concrete Industries Co</p>	
<p>Company Location</p>	<p>Saitama, Japan</p>	
<p>Appointment Location</p>	<p>Main Office, Company Facilities</p>	
<p>Field of activity</p>	<p>Kanto is a leading and active company in the production of stones and other concrete products with high technology. With over 70 years of experience in the production of concrete stones, this company has relied on its innovations and technologies to establish and register new technologies.</p> <p>One of the innovations of this company, which was registered in 1983, is the placement of natural stone pieces in concrete cases with a specific ratio of compounds under high pressure and under the influence of centrifugal force. In the centrifuges of this company, diverse and creative designs and textures have been created, which are used in many cases, including stair blocks, building exteriors, bridges, streams, and many other applications.</p> <p>Numerous structures in this country have been built using the products of this large and pioneering company, the most famous of which are the building and campus of Daito Bunka University and the advanced sports stadium of Hosei University.</p>
